

SOUTH AUSTRALIA 2026 FIELD SEASON

Graduate Opportunity

Graduate Bird Surveyor

About The Role

We are looking for a talented graduate with an interest in a unique opportunity to learn bird survey techniques and experience remote fieldwork in South Australia. You will be working with a team of ornithology experts and will support them in their work. This work will contribute to important regional field-based surveys which will collect data and information on biodiversity values targeting Matters of National Environmental Significance (MNES). Fieldwork to commence in early 2026.

Role Requirements

- Must be based in South Australia
- A current driver's licence
- Enrolled in a degree in Ecology, Zoology, Environmental Science, or related field
- Skills or interest in bird identification
- Comfortable with remote travel, camping, and flexible work hours
- First Aid Certificate

Desirable skills

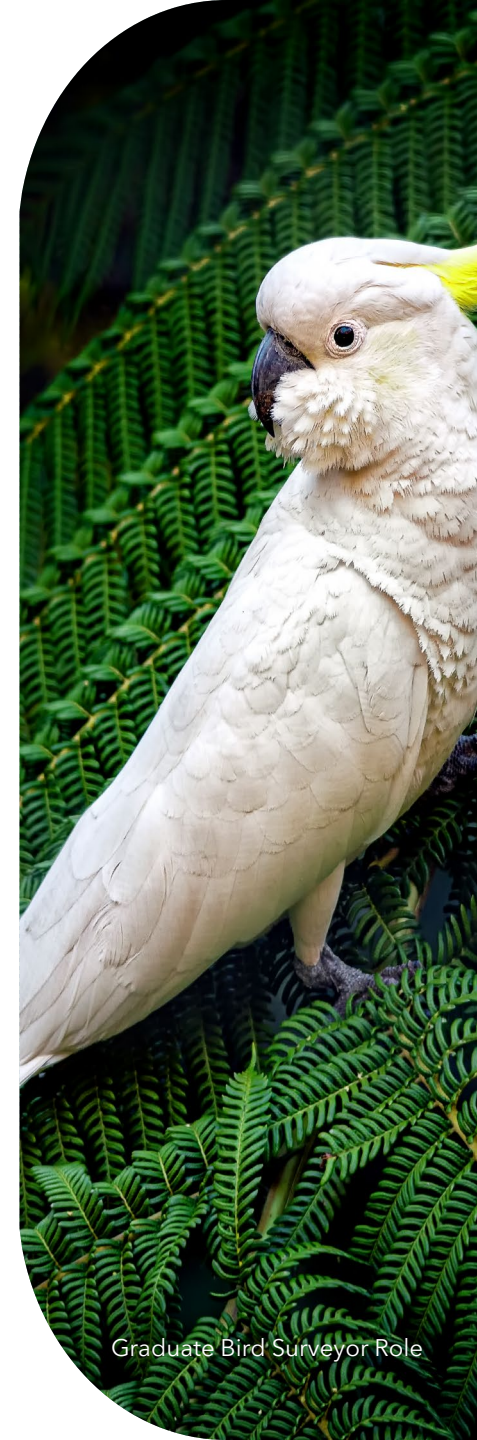

- Manual licence (4WD experience welcomed but not essential)
